Handheld Disinfection Units

Cobra 2680A Portable Sprayer
Equipped with a flexible hose, the Cobra ULV 2680A enables the user to spray into hard to reach areas. It is made from durable plastic and weighs only 3.4kg. This product is mains powered.
Product Code: Cobra2680A

Levanto Backpack Sprayer (Disinfectant/Insecticide Sprayer)
A Backpack ULV (Ultra Low Volume) Fogger, used for the spraying of disinfectants. The design enables you to fog an area with ease: simply place the product on your back and use the flexible hose to direct the disinfectant to the area of need. This product is battery powered.
Product Code: LEVA01

Maestro Electrostatic Sprayer
Our Maestro Electrostatic Sprayer provides even coverage with less hassle. As the Maestro disperses the solution, it gives it an electric charge, effectively wrapping around every surface.
The Maestro is cordless, relying only on a 8V Lithium ion battery, which gives users four hours of continuous run time and prevention from risk of tripping. It comes with a three in one adjustable nozzle for different particle sizes. This machine is quiet and lightweight at only 1.7kg. It comes with a deluxe carry case for portability.
Product Code: ES01

Maestro Electrostatic Backpack Sprayer

Our Maestro Electrostatic Backpack Sprayer provides even coverage with less hassle. As the Maestro disperses the solution, it gives it an electric charge, effectively wrapping around every surface, and reduces the risk of cross contamination due to the touchless aspect.

Our Maestro Backpack Electrostatic Sprayer is designed to allow the user to cover an area of up to 23,000 sq. ft on a single tank of fluid. It's designed to save time and labour, spray less liquid, and cover more surfaces. It comes with a light weight wand, a self standing unit, ergonomic strapping, a double locking tank, LED Battery lights, and a 3 way nozzle.

Product Code; ES02
